Did You Know?
One second of animation requires about 12 images. That means for each second of animation, an artist will need to adjust and photograph a clay figure 12 times to make it appear animated. That's about 720 moves for each minute... or 21,600 moves per half-hour! That's a lot of moves!

BEWARE THE BATMAN #1

DC Nation proudly presents: BEWARE THE BATMAN, a new, all-ages series! Bruce Wayne spent years learning crime-fighting techniques from his butler (and former secret agent) Alfred Pennyworth. Now he's ready to take on Gotham City's criminal underground as the Batman!

BATMAN '66: #4

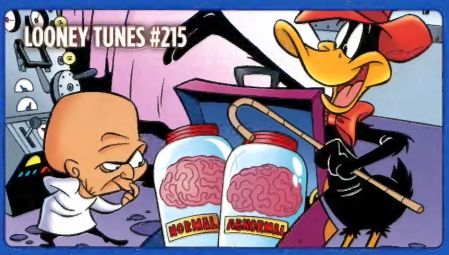
Batman and Robin head to 1960s London to take on The Mad Hatter! When the Caped Crusader hears that hats are being stolen from England's famous Beefeaters, he knows it can only be the work of Jervis Tetch. But something's also amiss at Big Ben.

BATMAN: LI'L GOTHAM #7

During Japan's Month of Waters, Aquaman calls upon The Dark Knight—so get ready for a battle of GIGANTIC proportions as the Bat-family faces robots, sea monsters and more in "Minazuki." Then, on Independence Day, Uncle Sam implores his villainous friends to steal all the fireworks for one explosive celebration!

MORE FROM DC COMICS:

When the monsters from a late-night horror movie TV show become all too real, they scare the hostess right out of her fright wig and straight to Mystery Inc. for help! Join the gang as they dress up and host the TV show themselves to unravel what's really causing a scene behind the set!



Acme has a product for everyone—but what about an evil scientist? Daffy Duck visits a castle and uses his finest Acme salesman techniques to find out! An evil scientist, eager to return to his fiendish experiment, leads Daffy through a booby-trapped castle to get rid of him.
